Concept Canopy

protect your car from the elements

Many households have two or even three cars. An average size garage usually has space for only one car to be protected. What happens to mum's, your daughter's or your son's car? They are left outside, open to all the elements.

Concept Canopy will make such a difference to your home and the way you live. Whether you choose a Carport, Covered Walkway, Children's Play Area or a stylish Patio Canopy. The construction is of tough and reliable glass reinforced plastic, the building material of the future. Being self-coloured your *Concept Canopy* needs no painting or maintenance ever. (Supplied with all fixings needed.)

- Rigid Glass Reinforced Plastic
- Completely Self-Supporting
- Totally Maintenance Free
- Withstands Snow Loads of 1690kg
- Withstands Wind Speeds of 146mph
- Available Within 7-14 Days

adds value to your property

Please see reverse for technical information

CONCEPT CANOPY

Your canopy will keep its good looks for years and years without continual upkeep. The tough translucent roof panels allow natural daylight through, so if your canopy is above your kitchen window, patio or living room, adequate daylight still enters your home.

Adds value to your property...

The *Concept Canopy* has undergone rigorous testing procedures in simulated and actual installations over many years. Monitoring of test models is continuous and no component deterioration has been detected. *Concept Canopy* requires no ground preparation and in most cases planning permission is not necessary. It immediately becomes a welcome addition to any house or bungalow.

Installation/Guarantee

The canopy installation can be carried out by trained installers in a few hours with no fuss and no mess. All you need to maintain the elegant looks is an occasional wipe clean. (Supplied with all fixings).

Concept Canopy is designed on a modular basis which means that you can increase the area of the cover at any time and there are no support pillars needed, giving maximum protection for all the vehicles you are ever likely to own.

**Modular width sizes
available up to 2440 projection**

Dear Customer

I thoroughly recommend *Concept Canopy* to you. Whether you choose a carport, covered walkway, children's play area or a stylish patio, the *Concept Canopy* will always retain its elegant looks without maintenance. The canopy has been tested at the University of Lancashire in Preston, to a snow loading of 1690kg. And to a wind load of 146mph, far in excess of whatever is likely to occur.

With its strong Cantilever design in a range of gloss colours, which never need painting, it is excellent value for money and would be a welcome enhancement to your home. All materials used in the construction of a *Concept Canopy* carry a five year warranty.

Flexi-Roof Modules

ideal for porches, extensions & canopies

Flexi-Roof

- Beautiful Sculptured Fascia
- Built in Guttering System
- Totally Leak-Proof Roof
- Available in 3 shades of White, Brown & Light Oak & Rosewood
- Fully Insulated Roof 0.2 U Value
- Fast Easy Installation
- Delivering Approx' 7-14 days

Please see reverse for technical information

FLEXI-ROOF MODULES

Constructed from glass reinforced plastic. Each roof is made to your exact requirements. Max size to the outside of the fixing timber (see diagram below)
6200 x 3300mm

Cut-outs can be built in, as well as blank ends to allow the module to fit against side walls.

This product is also compatible with our garden room roofs, allowing you to create many shapes of garden room.

Example

Supplied to your external frame sizes, we work out the overhang to suit your frame. You simply lift the roof on top of the frames and screw up into the fixing timber around the outer frame layout.

Even lighting is simple to install due to the built-in conduit.

Fitting can be completed in minutes, creating a beautiful, strong, lightweight porch.

Fully insulated to a 0.2 U Value.

Normal delivery approx 7-14 days.

**Now 80mm
P.U. Foam**

Available in Various Colours:

- 3 Shades of White: Standard, Ultra, Deeplas
- 2 Shades of Brown: Chocolate Brown & Light Oak and Rosewood

Split colours available, i.e. Brown Outer with White Ceiling, etc.
